

# Soda Tabs

Save your pull tabs from any aluminum beverage can!

Saving the pull tab from soda, soup and other cans with aluminum tops can make a big difference!

The Ronald McDonald House of Delaware collects donations of these tabs and delivers them to the Newark Recycling Center. There, they receive about \$.50 a pound for the aluminum pull tabs. It might seem like a small amount of money, but last year donations of pull tabs raised over \$6,000 for the Ronald McDonald House of Delaware!

Simply pull off your aluminum tab, save them or bring them into the classroom and have your child put them in our jar of tabs!

Our goal is to fill one container a month! Happy Pulling!

Ask a neighbor, family members and friends to help you collect them!
