## Foundation Christian Academy Acceptance Policy and Parent Agreement 2008-2009

Acceptance into Foundation Christian Academy is based on average to above-average school records, references, and test results. Virtually all students are admitted at the beginning of the semester only (with the exception of those students who move into the area and have not been enrolled in another school). F.C.A. does not accept or provide a program for students with behavioral or emotional problems.

My child is in good academic and behavioral standing at \_\_\_\_\_.  
**(Name of school)**

I understand that there is a 30-day trial period for new students. At the end of the trial period, the student must be in good academic and behavioral standing to remain at F.C.A. Should the student be dismissed, the registration fee is not refunded. Any advanced tuitions and supply fees will be pro-rated. An evaluation will be done again at 60 and 90 days and the policies regarding fees and tuitions will remain the same as above. The administrator or the school board may dismiss a student at any time for unacceptable behavior.

## Academic Accountability 2008-2009

Students will be given placement testing in order to determine suitability for enrollment at Foundation Christian Academy. A non-refundable fee of \$25.00 will be required for testing. I understand that upon registration this fee will be deducted from my application fee. Students who do not pass the placement testing may still be enrolled (at administrator’s discretion) if parents agree to additional requirements that may include tutoring, additional work at home or limited extracurricular activities. Students will be evaluated at 30, 60 and 90 days. Students whose academic standing is below required level may continue to be enrolled as long as additional requirements are continued, otherwise students will be dismissed.

I agree to and understand the above academic accountability policy.
