Certified ScrumMaster Class

Description

Scrum was designed to enable teams to achieve a hyperproductive state (5-10 times normal performance). To achieve this level of performance, essential grounding in the Scrum work management framework is necessary.

In Scrum, there are 3 roles: the Product Owner, the Team, and the ScrumMaster. The 2-day Certified ScrumMaster class imparts the knowledge, skills, and tools to successfully implement Scrum as a ScrumMaster. This highly interactive workshop provides a foundational understanding of the Scrum framework and gives participants hands-on practice applying Scrum in multiple project settings and situations.

Objectives

Using a combination of interactive presentations, problem-solving exercises, and team-structured simulations, the experiential workshop enables participants to:

- Understand the core principles, strategies, and practices of Scrum
- Practice applying Scrum in multiple project settings and situations
- Cultivate the ScrumMaster mindset vital to effectively managing projects and teams
- Gain skills and confidence in effectively communicating Scrum principles to managers and team members alike.

Topics

- Overview of Scrum
- Product Backlog
- Release Planning and Estimation
- Role of the Product Owner
- Role of the ScrumMaster
- Leading Self-Organizing Teams
- Sprint Practices
- Metrics and Reporting

Who should Attend

Managers, team leads, project managers, or other team members who wish to learn how to apply Scrum principles and rules to create high performing teams focused on rapid value delivery to their customers

JIM YORK is a Certified Scrum Trainer and cofounder of FoxHedge Ltd. For more than 20 years as a management and IT consultant, Jim has led, trained, and coached hundreds of individuals, teams, and organizations in the implementation of Lean and Agile concepts. His workshops blend his practical experience in Scrum, Lean Software Development, Extreme Programming, Agile Project Management, Product Management, and traditional project management. Jim shares his passion for Lean and Agile as a frequent presenter at conferences, users groups, public and on-site workshops, and as a business process coach.
