

**WHAT PEOPLE ARE SAYING...**

"This is perhaps the best *her*storical and consciousness raising film I have seen in a very long time. For anyone who wants to know what NOW does, and how she has benefited from the women's movement, this film is a must see."

**Marcia A. Pappas, President of NOW NYS**

"Women NOW is a wonderful compilation of not only nostalgia for the old timers but a most accurate explanation to the next generation of why we did what we did, and why we must continue the struggle for equality. *Yes Baby, She's My Sir* should be a must see for everyone and should be compulsory viewing for all educators of all grades."

**Marilyn Fitterman  
NOW Northeast Regional Director**

"*WOMEN NOW*, is a compelling historical document. It vividly recreates the early days of the women's movement through the activities of NOW and the experiences of its members. *Yes Baby, She's My Sir* recalls the blatant sexism of our language and the struggles to make it gender-neutral. Both of these will be of great value in Women's Studies and American Studies programs, as it will generate lively discussion of the comparisons between then and now."

**Ruth A. Brandwein, Ph.D.  
Professor and Director Stony Brook University**
