  - 10% off slide processing (regularly \$7.00 per roll) 2-3 hours
  - Bring slide film in before 12:30, back the same day
  - Open Sat, 9:00-3:00
  - [www.chromedigital.com](http://www.chromedigital.com)
2. Nelson's Photo (listed above)
3. Ritz Across from Southwestern on H Street Phone: 421-2826
  - 1 hour
4. Costco
  - \* Some students have had problems with underdeveloped negatives from Costco
  - \* Important –different film development methods, for color class, specify that you want negatives for traditional photo process.

\*\*\*Be careful about Photo stores that say they can make prints in 30 minutes or less. They are probably using a procedure that underdevelops the negatives and automatically corrects them and prints them digitally. This leaves you with bad negatives for printing in the darkroom.

### **Large Printing (digital)**

1. Giant Photo  
3617 India Street  
619-232-1371  
[www.giantphoto.com](http://www.giantphoto.com)

### **Digital Supplies**

1. Digital Arts Supply Ink Jet Papers
  - [www.digitalartssupply.com](http://www.digitalartssupply.com)
  - \*\*\*Best Place to buy quality ink jet paper in San Diego County
2. Staples CDRW, CD, some ink jet papers
3. Best Buy CDRW, CD, some ink jet papers
4. Wal-Mart CDRW, CD, some ink jet papers

\*\*\*On school ink jet printers, it is recommended that you use our stocked paper, Ilford Gallerie Smooth Pearl. Read the document on recommended ink jet papers and not allowed ink jet papers for more information.

\*\*\*Do not buy Prismic brand CD's from the bookstore. They don't work well. Other name brand CD's should be fine. I recommend Verbatim CDRW's. There is a difference in the quality of CD's.

\*\*\*CDRW's are the cheapest method of storing digital files for the class. Other possibilities include portable memory sticks or drives (USB) and portable firewire drives.
