

JANUARY 2009 SIMPLIFIED SCHEDULE

for TIDES in the AVON RIVER at WINDSOR, N.S.
and for the TIDAL BORE at MANTUA Bridge

A tidal bore happens approximately 2 times each day. This schedule
is simplified by giving only the significant daytime tidal bore.

Red indicates the strongest Minas Basin tides,
which produce a more pronounced tidal bore.

	Avon R.	Mantua	Avon R.	Avon R.	Minas Basin
JAN	Low	BORE	High	Tide	Tide
Date	Tide	Time	Tide	Ht(m)	Ht(m)
1	9:36	13:36	15:40	8.9	13.5
2	10:19	14:19	16:22	8.5	13.4
3	11:07	15:07	17:09	8.0	13.3
4	11:59	15:59	18:03	7.5	13.2
5	12:57	16:57	19:02	7.2	13.1
6	14:00	18:00	20:06	7.1	13.0
