

OCTOBER 2008 SCHEDULE of PREDICTED TIMES

For TIDES in the AVON RIVER at WINDSOR, N.S.

and for when the DAYTIME TIDAL BORE is in view from MANTUA Bridge

A tidal bore happens approximately 2 times each day. This schedule only lists the tidal bore which occurs during daylight. Red indicates the strongest tides which produce a more pronounced tidal bore.

A bore can be seen at Tidal View Farm at Miller Creek approximately 40 minutes earlier than this schedule.
