

**JUNE 2008 SCHEDULE for TIDES in the AVON RIVER at WINDSOR, N.S.
and for the TIDAL BORE at MANTUA Bridge**

A tidal bore happens approximately 2 times each day. In this schedule, blue indicates the tidal bore which occurs during daylight. Red indicates the strongest tides which produce a more pronounced tidal bore. This month's strongest or large tides are associated with the New Moon and perigee on June 3rd. Full Moon is on the 18th

	Tide	Tidal	Tide	Tide Ht	Tide	Tidal	Tide	Tide Ht
Da	Low	BORE	High	Range (m)	Low	BORE	High	Range (m)
1	4:56	8:51	11:01	11.1	17:16	21:14	23:27	12.0
